March 2013

Volume 1, Issue 1

The Boy Scouts of Robertson Co. Camporee

Paul N4AAN in the trailer with two scouts

We are in the first quarter of a new year, with many events coming up throughout the year; one has already taken place.

The Boy Scouts of the Robertson County area had a Camporee at the Glover Farm, out 49 West the weekend of February 16th. There were several camps set up on a hill in the cow pasture. Saturday was very cold and windy, youth had its advantages, the young men out there did not seem cold at all, and I was about to freeze.

Paul N4AAN brought his trailer out and set up down from the camp headquarters. There was a constant flow of the scouts and their parents passing through to view the station Paul had set up, to make some contacts and send e-mail by amateur radio. While I was in the trailer with them, the scouts seemed quite interested in the e-mail process. Paul did a great job promoting and explaining amateur radio at this event. I also had my mobile HF set up beside the trailer, and had some of the scouts and their dad's come up and view it. President Tommy and other members of the RCARC were there also to work with the scouts and promote amateur radio.

Banner on the trailer—Tommy and Bill

Skywarn Basic Severe Weather Spotter Training

March 28th at 7:00 p.m. there will be a Sky Warn Class at the Robertson County Senior Center. Bill N4LB set this up with the Weather Service and we should have a great turn out for this event.

Download the flyer here for more information:
